## PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and B.Tech (AI & ML) student with experience building scalable web and mobile applications using Java, Python, React.js, React Native, Node.js, Express.js, MongoDB, and REST APIs. Developed and deployed applications serving 500+ users, improved performance by up to 60%, and implemented real-time features. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, and Software Development.

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, JavaScript  
**Frontend:** HTML5, CSS3, JavaScript, React.js, React Native  
**Backend:** Node.js, Express.js, REST APIs  
**Databases:** MongoDB, SQL  
**Tools & Platforms:** Git, GitHub, Postman, VS Code, IntelliJ IDEA, Expo

## EXPERIENCE

**Full Stack Developer Intern** May 2024 – Jul 2024  
*Technical Hub*

- Developed and maintained full-stack applications using React.js, Node.js, Express.js, and MongoDB.
- Refactored backend APIs, improving application performance and reliability.
- Designed and tested RESTful APIs for efficient data communication.
- Wrote unit and integration tests to ensure software quality and reduce defects.
- Collaborated with development teams in feature implementation and debugging.

## PROJECTS

**FarmersBazaar** | *React.js, Node.js, Express.js, MongoDB*

- Built a real-time agricultural marketplace supporting 500+ users with integrated chat functionality.
- Improved backend response time by 40% through MongoDB indexing and query optimization.
- Developed a crop pricing recommendation tool that increased farmer revenue by 25%.
- Implemented secure authentication and role-based access control.

**ViharaYatra** | *HTML, CSS, JavaScript, Google Maps API*

- Developed a travel planning platform with smart destination filtering and itinerary management.
- Reduced page load time by 50% using lazy loading and code splitting.
- Integrated review and rating functionality, increasing user engagement by 35%.
- Improved user experience through responsive design and optimized navigation.

**JobPath** | *React Native, Node.js, MongoDB*

- Built a mobile application that recommends jobs based on user skills and career interests.
- Increased user retention by 40% through personalized profiles and skill progression features.
- Improved application performance by 60% on low-end devices through image compression and animation optimization.
- Implemented real-time updates and interactive UI using React Native and Expo.

## EDUCATION

**Aditya College of Engineering and Technology** Nov 2022 – May 2026  
*B.Tech in Artificial Intelligence & Machine Learning* CGPA: 7.47 / 10

- Relevant Coursework: Artificial Intelligence, Machine Learning, Deep Learning, Data Structures, DBMS

## CERTIFICATIONS

**IT Specialist: Java** – Pearson  
**Azure AI Fundamentals** – Microsoft  
**Oracle Database Foundations** – Oracle  
**IT Specialist: Javascript** – Pearson
